

Neotech Speciality Structures

Pre Engineered Steel Building Continues Colour Coating Plant

Spl. Plot No. 1, APIIC Growth Centre, Bobbili, Vizianagaram Dist.-535 558, Andhra Pradesh.

QUALITY POLICY

- We adapt ourselves to understand and meet evolving customer expectations.
- we are committed to Excellance in providing unmatched product Quality with speed and sales support.

NEOTECH Speciality Structures is a leading provider of
Pre-Engineered Steel buildings and pre fabricated structures
Our main focus is on providing Quality services at affordable price to
complete every projects planned time frame
We provide Turnkey project solutions for the following areas
Design & Build of industrial plants
Factories & warehouses, shopping malls, Hotels & Hospitals,
Commercial buildings

DESIGN SPECIFICATIONS

Neotech uses the following codes for analysis, design and fabrication of its pre-engineered buildings and components.

- 1. A.I.S.C. "American Institute of Steel Construction" Manual of Steel Construction 1989 and edition and its revisions. This manual is used for the design for all built up sections, hot-rolled sections and welded plates.
- 2. A.I.S.I. "American Iron and Steel Institute" Specifications for the design of cold formed steel structural members 1996 Edition and its revisions. This manual is used for all welding specifications and procedures.
- 3. M.B.M.A. "Metal Building Manufacturers Association" manual 1996 Edition / 2002 Edition Metal Building Dealers Association. This manual is used for all loading conditions, fabrication tolerances and is considered as a guideline for pre-engineered buildings. Its Neotech's policy to adhere to all latest updates of the above code. Apart from the above mentioned codes, Neotech is capable of designing the structures in accordance with B.S. 5950 and B.S. 449. For concrete design and related subjects, Neotech follows B.S. 8110 as the design code.

Building Design Certification

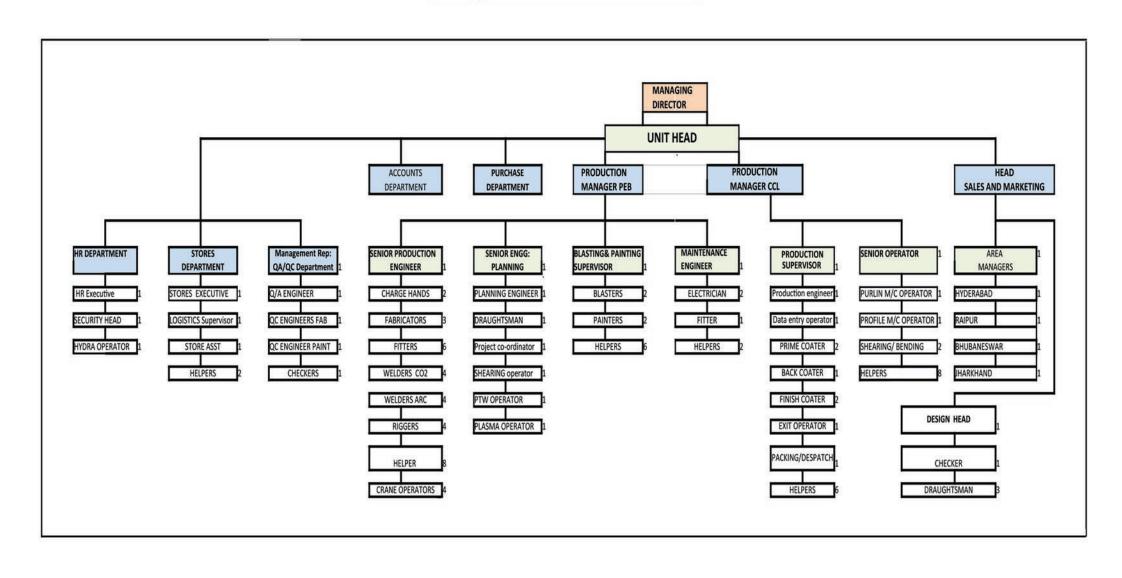

Upon the request of the client Neotech will provide a letter of certification towards the integrity of the design. The Engineering Manager and the Managing Director will duly authorize this letter.

Health and Safety

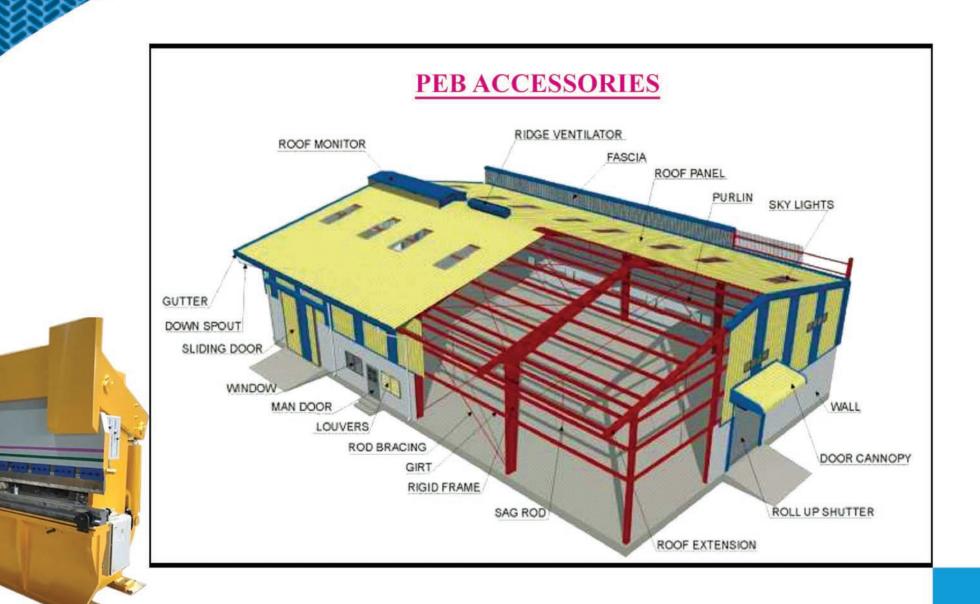

For Neotech good corporate citizenship begins with putting the safety of our people first. Safety is our number one core value and our corporation's top priority. Every employee has the right to return home from work safely at the end of every day, and we are working to eliminate all injuries and incidents at all of our facilities. We also believe that safe companies are successful companies, a belief that is helping to drive our quest for world-class safety performance and compliance with international standards.
